1. The Sächsisches Serumwerk in Dresden maintains a business connection with the Munich firm Suedmedica Pharmazeutische Handelsgesellschaft m.b.H. This Munich connection is described in the firm's literature as a depot for sera and vaccines.
2. The Serumwerk now produces sera, vaccines, and allergy-determinants. None of these products is being exported at present, but a group of technicians in the scientific laboratory of the Serumwerk are engaged in producing small quantities of high-quality pharmaceutical supplies, probably sera, for special foreign transactions. Only the German Economic Commission is authorized to conduct negotiations about these special products.
3. The following is a list of the items produced:
  - a. Cholera-Impfstoff zur Schutzimpfung.
  - b. Diphtherie-Serum vom Pferd.
  - c. Diphtherie-Aphylakto-Serum.
  - d. Symbiose-Serum vom Pferd, Diphtherie Streptokokken-Antitoxin in uno.
  - e. Grippe-Serum polyvalentes antiinfektiöses Pneumo-Streptokokken-Serum zur Behandlung der Grippe-Pneumonie.
  - f. Hämoglymeter zur quantitativen Schnellbestimmung von Blutzucker.
  - g. Meningokokken-Serum.
  - h. Milzbrand-Serum.
  - i. Normal-Serum zur unspezifischen Immuntherapie (intramuskular, subkutan).
  - j. Normosal steriles Serumsalz (anorganisches Serum mit gleicher Wirkung in der Blutbahn wie Blutserum), 1% Lösung entspricht genau der Ionenanalyse des menschlichen Blutserums. Zur Verwendung in allen Fachgebieten der Medizin: Blutauffüllung, Infusionen.
